

## English

- Think about ways that our oceans are being polluted. If possible, watch a blue planet episode.
- List how pollution and climate change is affecting our oceans and the sea life within it e.g. noise, over fishing, oil spillages, global warming.
- Create your own documentary in the style of Blue planet using any format you wish. It could be a power point, story board, written script, Imovies.

## Reading and Spelling

- Redesign the front cover and blurb of a book of your choice.
- Look up words ending in 'sion' Practise spelling them and write them into sentences.
- Practise joined neat handwriting while writing your sentences.

## Maths

- Practise Times Tables Rock stars and Year 4 Multiplication check on line.
- Estimating area. Practise area and perimeter using this website: <https://www.thenational.academy/online-classroom/year-4/maths/#subjects>
- Estimate how long it will take you to run around your house. Then time yourself to see the actual length of time.
- Estimate items around the house e.g. how many lego bricks in a container, how many slices in a loaf of bread.

## Creative - Blue Abyss

- Find out information about invertebrates.
- Draw and label an invertebrate showing all of their characteristics.
- Think about the types of sea creatures you might find at a sea life centre or aquarium. If you have been to one before, what did you see?
- Design your own sea life centre by drawing a map of all of the main attractions. How inventive and creative can you be? Make it exciting and bright and colourful.
