

English

- Find a recipe either online or in a recipe book and make at home. After, write a set of instructions informing others how to make the same meal. Remember to include ingredients, equipment, timings and diagrams that are easy to follow.
- Imagine you are going to give a speech in front of the whole school, talking about your time at Westfield. Write down your speech and include memorable moments and a message to the other children in school. You could maybe research some famous speeches to help you.

Grammar and Spelling

- Look at the Y5/6 spelling list, find all of the spellings that have a double consonant in them—for example, pp or gg.
- What is the difference is there active and passive voice? Give an example of each in a sentence.

Maths

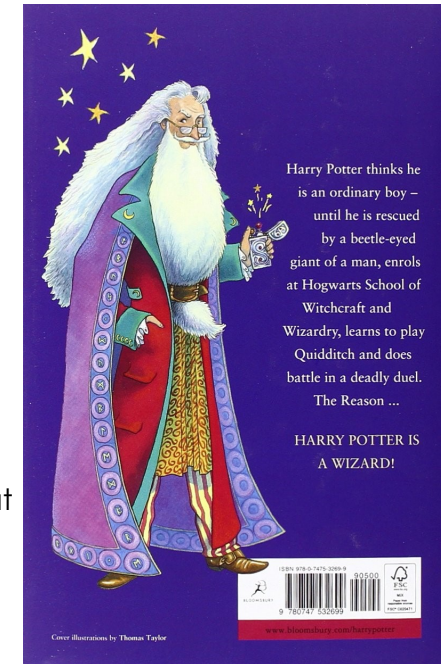

- Create some missing angles questions for other members of your family to solve—you may need to teach them properties of different shapes before you start!
- Add up the cost of all items in a shopping list without looking at the total cost, then check the receipt to see if your calculations are correct.
- Use the Mayan number system from last weeks PowerPoint to create some 'Ancient Mayan Arithmetic' questions—remember to calculate the answers too!

Reading

Look at the blurb of a book: make a prediction about the story by using the information included in the blurb.

What makes an effective blurb for a book.

If you could re-write the blurb, what would it look like?

Creative - Hola Mexico

- Create a 3D map of Mexico. We should be able to tell where the mountain, lowlands, rivers and oceans are on your map due to the height and texture you have implemented.
- Use magazine or newspapers to create a collage of any of the following:
 - ◇ Flag of Mexico
 - ◇ Map of Mexico
 - ◇ An animal you would find in Mexico
