

English

- Write a letter to your Year 3 teacher(s) telling them a little bit about yourself—you can even put it in an envelope and post it to school for your teacher to receive in September!
- Write a diary entry about your favourite day in Year 2: remember to use past tense and try to include as many sentence types as you can.

Reading

- Read at least 3 books on Oxford Owl, using your login in your book.
- Do some paired reading with an adult or older sibling. Let them read a page, then you, or sometimes read a page together.
- Design a new front cover for the book you are currently reading.

Remember to check Purple Mash for 2 Do activities set by your teacher.

Maths

- Follow this link: <https://www.mathsisfun.com/timestable.html> and complete the times tables quizzes for the 2, 5, 10, 3 and 4 times tables.
- Follow the link and have a go at some of the times tables games: <https://www.topmarks.co.uk/maths-games/5-7-years/times-tables>
- Use your times tables facts to solve the division calculations (on the next page).

Creative - All things bright and beautiful

- Find out how plants and flowers transport water by creating a 'rainbow of flowers'. Carefully place the stems of white carnations (or plants with pale petals) in coloured water (use food dye) and watch what happens! Take a picture at 2 minute intervals to show how the dye is travelling through the plant. Explain what you have observed in simple scientific vocabulary.
- Learn an action rhyme such as Here We Go Round the Mulberry Bush joining in with words and actions. Create new lyrics that inform others how to plant a seed or bulb. Before starting, sequence the process making suggestions about actions to use for each verse.

Create a Rainforest in a Jar at Home. You will need: a large, clear mason jar (so you can see inside), a few flower or vegetable seeds, 1/2 cup of potting soil, 1/4 cup of water, small piece of sandpaper. Optional: A piece of moss (collect your own). Carefully pour the soil into the jar. Pour the water into the jar so that the dirt gets nice and moist. Rub the seeds with the sandpaper (gently!) to aid water absorption. Drop your seeds and moss sample into the jar. Place your terrarium in a sunny location.

- Make maps and plans to design a fantasy garden, thinking about which plants and flowers they would grow there. Alternatively, create a fantasy 'fairy garden' or 'gnome home' in a wooden box or outside using: grass and twigs, dried mosses, painted toadstools, matchstick fencing or painted stones and shells.
